WORK EXPERIENCES

Software Developer | Next.js, Prisma, Supabase
AppQuant

May 2025 – February 2026
Remote

- Architected and deployed production-ready full-stack applications using Next.js (App Router), Prisma, and TypeScript, ensuring seamless integration of complex third-party services and scalable backend architectures.
- Engineered a comprehensive Customer Relationship Management (CRM) system featuring team collaboration, quote/invoice generation, and real-time analytics dashboards to streamline internal operations.
- Automated end-to-end outreach by integrating ElevenLabs for AI-driven outbound calls and OpenAI for post-call sentiment analysis, summaries, and personalized email follow-ups.
- Implemented advanced frontend performance patterns, including optimistic UI updates, debouncing, and lazy loading, while utilizing Tailwind CSS and responsive design principles for a polished user experience.
- Managed database integrity and security by writing complex Prisma schemas, handling migrations, and configuring SQL Row-Level Security (RLS) within Supabase for secure multi-tenant data access.
- Built secure payment and communication pipelines using Stripe for subscriptions, Resend for transactional emails, and Twilio for integrated SMS/calling features.
- Automated mission-critical backend tasks using Vercel Cron Jobs for daily in-app reminders and scheduled notifications.

Developer Intern | Next.js, Prisma, Supabase
Kynatech

September 2024 – October 2024
Remote

- Translated high-fidelity Figma designs into responsive Next.js components using Tailwind CSS and Shadcn UI (Radix UI-based), ensuring strict adherence to UI/UX specifications.
- Developed full-stack features with secure authentication, utilizing NextAuth and custom logic to manage complex user permissions and sequenced event records.
- Collaborated in an Agile environment, participating in daily stand-ups and code reviews to maintain high coding standards and clean, maintainable documentation.
- Streamlined developer onboarding by authoring technical user manuals, bridging the communication gap between technical teams and non-technical stakeholders.

PROJECTS

HueFit | Next.js, React Native Expo, FastAPI, Prisma, Supabase
Live: [hue-fit.quinchy.dev](#)

November 2024 – February 2025

- Developed a sophisticated E-commerce platform utilizing a Turborepo monorepo structure to share packages and environments across Web and Mobile applications.
- Implemented robust form handling and data validation using React Hook Form and Zod, ensuring type-safe interactions between the frontend and PostgreSQL database.
- Integrated Machine Learning APIs (FastAPI, TensorFlow) to deliver real-time recommendation features, demonstrating an ability to tackle unfamiliar technical challenges autonomously.

SKILLS

Frontend: Next.js, React.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Shadcn UI, Zustand, TanStack Query, Zod, React Hook Form

Backend: REST APIs, Prisma, PostgreSQL (Supabase), MySQL, NoSQL (Firebase, MongoDB), Python (FastAPI)

Platforms & Infra: Stripe, Twilio, Resend, OpenAI, ElevenLabs

Tools: Cursor/VSCode, Git/GitHub, Vercel, Docker, Postman, Figma

EDUCATION

Bachelor of Science in Computer Science
Bataan Peninsula State University – Main Campus

September 2021 – August 2025
Bataan, Philippines
